

Questions to ask your insurance company about coverage for **lung cancer screening**

Lung cancer screening means testing for lung cancer before a person has any symptoms. Right now, many insurance companies are covering this service for those considered to be at high risk. However, before you decide to get a lung cancer screening, it is important to know exactly what your insurance will cover. Use the questions below as a guide for your conversations with your insurance company.

for your plan information and group ID.	
Notes:
